The Trumansburg Central School District anticipates conducting a construction project commencing on or about May 2009. This project will be conducted at the above buildings located on 100 Whig Street, Trumansburg, N.Y. The project will consist of addressing needs in the following areas: Health & Safety, Energy Efficiency, American with Disabilities Act (ADA) Compliance, Educational Technology, and Facilities Maintenance.

Pursuant to Education Commissioner's Regulation 155.5(d), the Trumansburg School District will provide a safe school environment throughout this project, including an update of the school emergency plan to reflect any temporary exits or procedures needed as a result of the construction work at the school facilities. Fire drills will be held to familiarize students and staff with any temporary exits. The construction area will be separated from occupied areas of the building, all construction workers will be required to wear photo identification badges, and noise levels will be kept to a minimum while the building is occupied. All applicable federal and state rules and regulations will be strictly adhered to throughout the length of the project.

Specific questions or concerns about this project may be directed to either Paula Hurley, Superintendent of Schools, or Laura Bellis, Business Administrator, at (607)387-7551.
